

Village Hall Report April 2021

Woodton Village Hall was closed to the public during the first lockdown in March 2020 and has remained closed until the present. Plans to reopen in line with the government easing of restrictions will come into place during the summer of 2021 and once the committee is able to meet again to implement the necessary risk assessments.

Before lockdown, fund raising events had continued including Breakfast clubs which have been well supported by the village – the last events were held in December 2019 and early March 2020. We hope these events will restart once the hall opens.

The site has been used for regular visits from a Fish and Chip van during early 2021 which has proved a popular community benefit.
