

Certificate of Compliance

Installation

The Double Bay Swing Frame with 2 Flat Seats and 2 Cradle seats has been installed by NGF Play at Ravens Den, Woodton.

The Double Bay Swing Frame with 2 Flat Seats and 2 Cradle seats has a critical fall height of 1.6m and Ecobond (Bonded Rubber Mulch) has been installed around the Double Bay Swing Frame with 2 Flat Seats and 2 Cradle Seats by NGF or by a sub-contractor on behalf of NGF Play.

Safety Standards

All NGF Play equipment is designed, manufactured and installed to meet British and European Safety Standards BS EN1176.

Aluminium plaques will be fitted to all equipment stating compliance in accordance with the standard.

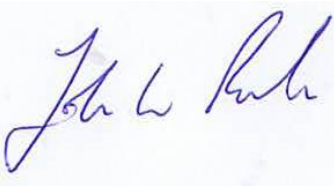

All safety surface products are manufactured and tested to BS EN 1177 and installed according to BS EN1176.

Play Equipment

Where possible all equipment will be based on our round pole rustic-style Radiata timber, with the inclusion of some steel items and components. The legs on all towers will have our 'long life' steel ground supports. All timber will be pressure treated and guaranteed against rot causing failure for 15 years.

API Member

In order to be admitted to the Association of Play Industries, all members must meet the required standards of experience, proficiency and commercial competence appropriate to their section of membership. Member Companies may be required to demonstrate that they continue to comply with these membership criteria on an annual basis.
